High-speed printer

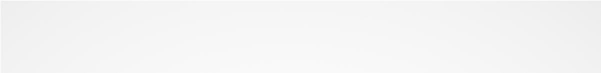
The **SP01** is designed with a built-in thermal printer to ensure continous receipts printing. The printer needs a standard 58mm paper size, which ensures you always find paper rolls everywhere in the world. Never miss a customer with a high-speed of 100mm/sper receipts.

Capture barcodes with ease

The **SP01** comes with a rear camera to scan barcodes quickly and take QR code payments in a glimpse. This handheld POSprinter can also be used to retrieve information from a barcode forcustomers such as lottery tickets, transport tickets, or loyalty programs.

Get the best experience

With a 5.5” touch screen, this terminal ensures the user to have access to everything with one hand.This large screen is convenient to display any business apps. It also benefits from a capacitive multi-touch screen to guarantee every touch interaction.



Take contactless transactions

The SP01 integrates a powerful NFC antenna to scan contactless cards such as employee cards, subscriptions cards or customer loyalty program cards. It can literally take any closed-looppayments scheme.
